

Product Description: **BioKits ALLERGEN SWABBING KIT**: designed to provide an effective method of swabbing food preparation surfaces, manufacturing equipment etc and collecting and transporting the resulting swabbing solution.

Catalogue Number: **901042J**

When used in accordance with the principles of Good Standards of Occupational Hygiene, Good Laboratory Practice (if appropriate) and the instructions stated in the Product Insert, products manufactured and distributed by Tepnel *BioSystems* are not considered to present a hazard to health.

The kit is not regarded as presenting any intrinsic hazard or danger to health. No MSDS certificates, as regulated by the U.K. Chemicals (Hazard Information and Packaging for Supply) Regulations 1994, are required for the reagents/constituents within this kit:

NOTE: It is advisable to wipe the swabbed area with a clean, damp cloth to remove any minute traces of surfactant/preservative, although these are present in extremely small amounts and do not present any threat to health.
